

Summer Jobs evaluation: information for young people

You are being invited to take part in a research project.

This is an opportunity to share your views on a new employment scheme launching for the first time this summer!

Please read this information sheet to help you decide whether you would like to take part. You might want to share and discuss with a friend, family member or somebody else that you trust.

If you have any questions about the Summer Jobs programme or this research please ask the youth worker, or contact the researchers at the email address above (the QR code will take you to the email address).

Got a question? Contact us at summer.jobs@bi.team or by using the QR code.

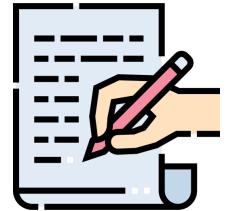

Who are we?

We are a team of **researchers at an organisation called the Lab**. We are working with **UK Youth** to find out what young people think of The Summer Jobs Programme. This will **help us to decide whether it's a good idea to offer it to even more young people in the UK**.

What is involved?

- ★ **All young people** who sign up to Summer Jobs will be asked to fill out **three short surveys about their feelings and behaviours**, and **one survey about their experience of the programme**.
- ★ You will be asked to complete one survey today, and the others at the end of the programme or a month after the end of the programme. This is so we can see how your feelings and behaviours may have changed over the programme.
- ★ You **may** also be invited to talk to a researcher about your experience, either individually or as a group with other young people. **This part of the research is completely optional**. If you are selected, you will be contacted separately about this at a later date.

Do I have to take part?

It is up to you whether you take part. If you choose not to, you will not be able to complete a job placement this summer. If you do decide to take part, you can **choose to stop participating at any time**. If you have any concerns, please discuss with your youth worker who will try and answer them, or contact the research team using the information above.

What are the risks to me if I choose to take part?

Some of the questions in the survey might feel sensitive but you can also choose **not to answer any of the questions**. At the end of the survey you can talk to your youth worker about any concerns and you will be given information about organisations which can offer support.

How will the information you collect be used?

We will write about our results from the project, which will be published online. We may use the things that you have said but we will never use your name.

How will you keep my information safe?

During the project, only our research team will have access to your information. We won't tell anyone else about what you say to us, unless we think you or someone else might be **at risk of harm**. In that case, **we would tell someone who could help you**. You can find out more about how we will use your information in our [privacy notice](#).

Additional info - what will happen if I choose to take part?
